Within the context of the applicable legal provisions, you have certain rights in relation to your personal data. Please note that there are certain exceptions to the exercise of these rights, and therefore you may not be able to exercise them in all cases.

You have the right to object at any time to processing of your personal data that is based on legitimate interests for reasons relating to your particular situation. These personal data will then no longer be processed for these purposes, unless compelling legitimate grounds for the processing are established that outweigh your interests, rights and freedoms, or the processing relates to the establishment, exercise or substantiation of a legal claim.

In individual cases, your data will be processed for the purpose of carrying out direct marketing. h) Facebook Pixel

Our website has integrated the so-called “Facebook Pixel” of the social network Facebook, which is operated by Facebook Ireland Ltd., 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland. We use Google Tag Manager on our website to include Facebook Pixel.

Facebook Pixel is a Java script. When you visit our website and give your consent, the Facebook Pixel allows your browser to automatically establish a direct connection to the Facebook server. As a result, in particular the following data can be recorded and transmitted to Facebook:

Your IP address, device and browser properties, URL, referrer URL, Pixel ID and Facebook cookie, as well as information on page views and data entered in input fields.

We use Facebook Pixel to track the actions of visitors to our website, to retarget Facebook advertisements for our website visitors, and to acquire additional information about Facebook members who view our advertisements.

These methods are also used to analyze the visitor structure using Facebook data. The data are stored for 180 days.

The legal basis of the data processing is Art. 6., para. 1 letter a GDPR.

Facebook processes the data within the framework of Facebook’s Data Usage Guideline: <https://www.facebook.com/policy.php>

You can obtain special information and details on Facebook Pixel and its functionality in the Facebook Help area: <https://www.facebook.com/business/help/651294705016616>

h) LinkedIn Insight-Tag

We use the “LinkedIn Insight Tag” on our website, a tool operated by LinkedIn Ireland Unlimited Company, Wilton Place, Dublin 2, Ireland. LinkedIn has placed tags on the website through the Google Tag Manager (a.k.a. Doubleclick).

The LinkedIn Insight Tag creates a unique LinkedIn browser cookie in a visitor’s browser when granting the corresponding consent and visiting our website and enables the collection and transmission of the following data to LinkedIn: Metadata, such as IP address, timestamp and page events (e.g., page retrievals).

For more information, visit: <https://www.linkedin.com/help/linkedin/answer/65521>

The LinkedIn Insight Tag is used for the purposes of tracking the actions of visitors to our website, retargeting our website visitors and obtaining additional information about the LinkedIn members who view our advertisements. LinkedIn also provides retargeting for website visitors so that we can use this data to display targeted advertising outside our website without identifying the member. Members of LinkedIn may control the use of their personal data for advertising purposes in their account settings.

In addition, the process is used to analyze visitor structure using the LinkedIn data. Data is stored for 180 days.

The legal basis for the processing is Article 6 (1) (a) GDPR. More details about LinkedIn’s data collection and settings options can be found in the LinkedIn privacy policy. LinkedIn provides this information at <https://www.linkedin.com/legal/privacy-policy>.

4. Cookies

We use cookies on our websites. Cookies are small text files that can be placed on your hard drive when you visit a website. These text files are created and sent to you by the web server with which you have made a connection through your web browser (e.g. Internet Explorer, Firefox, Google Chrome). Cookies cannot run any programs or infect your computer with viruses. Their purpose is to make your whole Internet service more user-friendly and effective.

This website uses Google Tag Manager, a tag management system that allows JavaScript and HTML tags to be quickly deployed and updated on our website for tracking and analytics. If you have performed deactivation, GTM takes this deactivation into account. Google Tag Manager itself does not register personal data and only ensures that certain tags are activated or not.

You can find more information on usage terms and conditions and data protection at: <https://policies.google.com/privacy?hl=en> and terms of use at <https://www.google.com/analytics/tag-manager/use-policy>.

Our websites use the following kinds of cookies. Their scope and how they work is explained as follows:

- Transient cookies (a)
- Persistent cookies (b)

a) Transient cookies are automatically deleted when you close the browser. These include session cookies in particular. They save a “session ID “with which various requests by your browser can be allocated to the whole session. This means your computer can be recognized again when you return to our website. The session cookies are deleted when you log out or close your browser.

b) Persistent cookies are automatically deleted after a predetermined period, which can vary depending on the cookie. You can delete the cookies in the security settings of your browser at any time.

c) You can configure your browser settings according to your preferences and, for example, opt out of third-party cookies or all cookies. However, please note that you might not be able to use all functions of this website.

d) The flash cookies we use are not captured by your browser, but rather by your flash plugin. We also use HTML5 storage objects that are placed on your terminal. These objects save the necessary data independently of the browser you use and have no automatic expiration date. If you do not wish to have flash cookies processed, you must install an add-on for that purpose, e.g. “Ghostery” for Mozilla Firefox (<https://addons.mozilla.org/de/firefox/addon/ghostery/>) or the Adobe-Flash-Killer-Cookie for Google Chrome. You can prevent the use of HTML5 storage objects by putting your browser in private mode.

5. Recipients of personal data:

For the operation of our website and for the provision of personalized services, PVS also employs external service providers who support us in processing orders, operating the website, providing personalized services and providing information to customers. These companies may only use your personal data in fulfilling their tasks on our behalf and are obligated to comply with the relevant data protection regulations.
